FOR PRINT AND ONLINE RELEASE:

Aeroflex 3920 Digital Radio Test Set's Auto-Test II Option Now Includes EIA/TIA-603 Compliance Test for FM Land Mobile Radios

<http://www.aeroflex.com/ats/products/prodfiles/news/03062009a.pdf>

Wichita, KS.–March 6, 2009—Aeroflex today announced it has enhanced its Auto-Test II test function for the Aeroflex 3920 Digital Radio Test Set. The Auto-Test II application now performs test functions as prescribed by the EIA/TIA-603 standard for testing any FM Land Mobile Radio. This option allows development groups, manufacturers and field service operations to verify that FM Land Mobile Radios perform to specifications. With the ability to program up to 30 channels, the 3920 with the TIA-603 test option allows the user to quickly verify critical Transmitter and Receiver performance with the option to use PTT auto-key and de-key to automate radio testing. Results are saved and can be printed directly from the 3920 to any printer.

The Transmitter tests include Frequency, Power, FM Hum and Noise, Audio Distortion, Audio Frequency Response, Microphone Sensitivity, Modulation Limiting and CTCSS. Receiver tests include Sensitivity (SINAD), Audio Distortion, Audio Sensitivity, Hum and Noise, Audio Frequency Response, Displacement Bandwidth, Audio Squelch Sensitivity and Audio Squelch Blocking.

Price and availability

The TIA-603 test function is available under option number 390XOPT603. The 3920 Digital Radio Test Set has a delivery date of 8 weeks. For more information on price and availability, contact your local Aeroflex sales office by visiting www.aeroflex.com or calling Aeroflex Sales at (800) 835-2352.

About Aeroflex

Aeroflex Incorporated is a global provider of high technology solutions to the aerospace, defense, cellular and broadband communications markets. The Company's diverse technologies allow it to design, develop, manufacture and market a broad range of test, measurement and microelectronic products. Aeroflex Incorporated was founded in 1937 and today has more than 2600 employees worldwide. Additional information concerning Aeroflex Incorporated can be found on the Company's web site: www.aeroflex.com.

All statements other than statements of historical fact included in this press release regarding Aeroflex's business strategy and plans and objectives of its management for future operations are forward-looking statements. When used in this press release, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to Aeroflex or its management, identify forward-looking statements. Such forward-looking statements are based on the current beliefs of Aeroflex's management, as well as assumptions made by and information currently available to its management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors, including but not limited to, competitive factors and pricing pressures, changes in legal and regulatory requirements, technological change or difficulties, product development risks, commercialization difficulties and general economic conditions. Such statements reflect our current views with respect to the future and are subject to these and other risks, uncertainties and assumptions. Aeroflex does not undertake any obligation to update such forward-looking statements.
